Innovative Technology Can Help Drive System Accountability & Improve Outcomes

Presented by:

Stabilify™
The 4 Keys to Technology Driving System Accountability & Outcomes

**DATA SHARING**
Bi-directional & Interoperability

**CUSTOMIZABLE**
You, the user, must drive the development because you know best what you want

**REAL-TIME SURFACING OF DATA**
No more looking in the rear-view mirror

**KEY INFLUENCERS**
Don't assume you know what is driving your outcomes – let the data verify for you
