**ME STATE OPIOID RESPONSE DISC GRANT SVCS-
HOSPITAL BRIDGE**

STATE PROGRAM: COMM SUBSTANCE ABUSE SERV
(1301110000)

COVERED COSTS: This discretionary grant program aims to address the opioid crisis by increasing access to medication-assisted treatment (MAT) using the three FDA-approved medications for the treatment of opioid use disorder, reducing unmet treatment need, and reducing opioid overdose related deaths through the provision of prevention, treatment and recovery activities for opioid misuse and opioid use disorder (OUD) including prescription opioids, heroin, and illicit fentanyl and fentanyl analogs.

RECIPIENTS: Individuals with opioid use disorders that have overdosed or experienced other medical problems due to opioid misuse in the hospital setting.

AUTHORIZED SERVICES: The goal is to utilize the time spent in the hospital to engage the individual in treatment and if possible, immediately begin buprenorphine induction and provide access to maintenance treatment and recovery support services to keep the individual from experiencing withdrawal symptoms upon release. These programs use peer specialists to assist with engagement, provide linkage to the maintenance provider and other community support resources, and provide peer support until individuals are linked with community-based care. Emergency departments with DATA2000 physicians who can initiate buprenorphine induction, and peer-organizations with peer specialists who can serve multiple emergency departments, must be prioritized.
